

# AJAY KURANI

CERTIFIED PERSONAL TRAINER

TIER 2

MY GOAL AS  
YOUR TRAINER IS  
TO TEACH YOU TO  
KEEP GOING  
BECAUSE YOU ARE  
ALMOST THERE

## Training Philosophy

“THE BEST PROJECT YOU’LL EVER WORK ON IS YOU” As a trainer, I will give you all the tools to succeed. The drive and motivation must come from within without excuses. If we set a goal (your project), you must achieve it and do whatever it takes to do it. It will take time (6-12 months) but can be accelerated with the proper nutrition and workout plan. I’ve always believed “train as hard as you can without injury”. That’s where I come in, I have the ability to teach you to manage your injuries and maximize your gains through different types of training such as strength, physical therapy, corrective exercises, super slow training, Olympic lifts, and circuit training. I am well-trained in various soft tissue techniques such as SMFR, Fire Cups, Gua Sha, sport massage, and START technique (like ART). I like to customize each plan to each individual. I set out on a journey last year in March, and have not missed one day of exercise since March 2, 2016 and plan to carry that momentum forever. It’s all about commitment and lifestyle change.
