

# ROBERT O'CONNOR

CERTIFIED PERSONAL TRAINER

TIER 2

## Training Philosophy:

Practice makes perfect. I believe in committing your fullest and earnest effort to anything you do, no matter how big or small. I hate doing the same thing over and over again and that especially goes for my workouts. I like to integrate the newest methods and bring a variety of options to exercising, thus making it exciting and fresh. My interest in physical therapy and injury recovery spark my college career in Health and Exercise Science (Physical Therapy). I want to bring my knowledge to YOU!

## Experience:
