

# WAYNE BUCKNER

CERTIFIED PERSONAL TRAINER

TIER 2

MY GOAL AS  
YOUR TRAINER  
IS TO INSPIRE  
FITNESS INTO  
YOUR LIFESTYLE

## Training Philosophy:

“Train like an athlete”. You might say to yourself, “Well why do I want to be an athlete?” Athletes are known to be one of the highest performing people in fitness today. They can run fast, jump high, move in ways that you can only imagine. Athletes are also focused on fitness goals, determined to get to those fitness goals, and always looking for ways to get in better shape. I use this saying for you to picture yourself like an athlete when you train, when you look at yourself in the mirror, and the way you live your life. My mission is not to just get you in the best shape of your life physically, but also mentally and spiritually. You don’t need to play a sport to be an athlete. Let the way you train with me control that for you.

## Experience:

Personal Trainer- since 2015

Volunteer - Central Valley Physical Therapy
